

CONTENTS

Abstract.....	1
1. Introduction.....	2
2. Multiplicity Measurements.....	3
2.1. NM-64 neutron monitor at Syowa Station.....	3
2.2. Latitude survey	4
3. Barometric Coefficients of Multiple Neutrons	8
3.1. Coefficients at Syowa Station	8
3.2. Rigidity dependence.....	9
4. Response Functions of Multiple Neutrons in Different Years.....	12
5. Application of Observed Multiplicity Spectrum to the Study of Primary Time Variations	18
5.1. Solar proton event.....	19
5.2. Forbush decrease	24
5.3. Diurnal variation	25
6. Discussion.....	27
7. Conclusion	30
Acknowledgments	30
References.....	31
Appendix I	33
Appendix II.....	34
